4. CONSENT

Read each statement and write your initials in the box.

1. A tattoo is permanent

I understand that a tattoo is a permanent change to my skin. Removal needs laser or surgery, costs money, and may leave a scar or an incomplete result. I have checked the design, spelling and placement.

Initials

2. I understand the risks

I understand the risks of a tattoo: pain, bleeding, swelling, infection, allergic reaction to ink, scarring and a result that differs from what I expected. These can happen even when the work is done correctly and I follow the aftercare.

Initials

3. My health answers are true

My answers about my health are true and complete. I told the studio about any condition, medicine or allergy that could affect the procedure or healing.

Initials

4. I will follow the aftercare instructions

I will receive written aftercare instructions and I will follow them. I will contact a doctor if I see signs of infection.

Initials

5. The look can change over time

Colors and lines can look different after healing and change over time because of my skin type, sun and age. Touch-ups may be needed.

Initials

6. I am signing freely

I am sober and able to make this decision. Nobody has pressured me to get this done. I am the person named on the photo ID I showed the studio.

Initials

7. I agree to the tattoo

I have read this form, I had the chance to ask questions, and I agree to the tattoo.
